INTERNSHIPS

Code Clause Pvt. Ltd., 1 Months

As a Web Developer Intern at Code Clause, I completed a 1-month program, successfully contributing to two projects. The first project involved crafting a Product Landing Page using HTML, CSS, JavaScript, and Bootstrap. For the second project, I designed a Personal Portfolio Website, employing the same technologies.

Code Soft Pvt. Ltd., 1 Months

As a Web Developer Intern at Code Soft, I've been working on projects to enhance my skills. Currently, I'm building a Landing Page and an Online Quiz Maker website using

HTML, CSS, JavaScript, and Bootstrap. My goal is to gain knowledge and proficiency in web development..

PROJECTS

Employee Registration And Login System, 30 Days

Led the development of an Employee Login and Registration System, designed to enhance security and efficiency in employee management. Implemented secure authentication, role-based access control, and password recovery features to safeguard sensitive information. The Employee Login and Registration System remains instrumental in maintaining secure and efficient employee management within the organization.

Product Landing Page, 25 Days

A product landing page project involves creating a dedicated web page to showcase and promote a specific product or service. The primary goal is to capture the attention of potential customers, convey key information about the product, and ultimately persuade visitors to take a desired action, such as making a purchase or signing up for more information.

OTHER INTERESTS

Sports like cricket and kho-kho.
Health related activities like jim & yoga.
